

SPONSORSHIP PROSPECTUS

SPRING 2027
LOS ANGELES, TBA

ABOUT HACKMESA

HACKMESA is a student-led, inclusive, and innovative 24-hour hackathon that empowers California community college students from diverse backgrounds to explore, create, and collaborate on technological solutions. Organized through the Mathematics, Engineering, Science Achievement (MESA) program, it provides hands-on project experience, mentorship, networking opportunities, and meaningful exposure to industry professionals.

WHY HACKMESA

HACKMESA is more than a competition, it's a space where students build real-world experience, work in teams, connect with industry mentors, and develop career opportunities by showcasing their skills. It also supports diversity in STEM by uplifting underrepresented students. Your sponsorship helps provide the resources and support that make HackMESA possible.

WHY SPONSOR

By sponsoring HACKMESA, you're investing in one of California's fastest-growing community college hackathons and connecting directly with a diverse, talented pipeline of future engineers, developers, and innovators. Across our events, HACKMESA has supported over 300 hackers representing 20+ majors and 20+ community colleges, including 200+ first-time hackers and 160+ female, non-binary, and gender-diverse participants. Your support helps us expand access to hands-on technical experiences while giving your organization meaningful visibility and opportunities to engage with the next generation of STEM talent.

HACKMESA Supported >

300+ Hackers

20+ Majors

200+ Beginner Hackers

20+ Community Colleges

160+ female, non-binary, and gender-queer hackers

A MESSAGE FROM THE TEAM

In the spring of both 2025 & 2026, the HACKMESA team came together and embarked on a months-long journey to bring the HACKMESA vision to life. What began as one of the first student-led hackathons within the Los Angeles Community College District (LACCD) quickly became a celebration of innovation, collaboration, and accessibility. Our inaugural HACKMESA hackathon welcomed over 100 students from across the district, featured dozens of inspiring projects, and proved that community college students could build meaningful solutions while connecting with peers, mentors, and industry professionals. That success laid the foundation for something much bigger.

Building on that momentum, HACKMESA 2026 expanded beyond Los Angeles into a statewide initiative led by MESA programs across California. Together, we partnered with **15+ community colleges**, welcomed students from **20+ community colleges statewide**, brought together **150+ attendees**, awarded over **\$5,000+ in cash prizes**, and collaborated with **30+ sponsors and industry partners** to create our largest and most impactful event yet. What makes HACKMESA especially meaningful is that every aspect of the event, from sponsorships and logistics to software development, workshops, judging, and event operations, is planned and executed by dedicated student organizers. As we continue planning future HACKMESA events, we are excited to build on this momentum and create even greater opportunities for the next generation of innovators. We are deeply grateful to every sponsor and partner who has believed in our mission, and we look forward to continuing this journey together.
